

I can't live w/out K-love. It serves my family w/clean, Christian music & news & it's the only commercial free, family safe radio station I know of. We need Christian music in this city/nation, not everybody likes all that no meaning music. My son is only 15 and k-love is all he & I listen to, it teaches values, please klove serves the public by giving hope, refreshing/clean fun music 4 a change. It has ministered to community & stopped me & prob. others from committing suicide many times. Please don't let us lose the only decent thing we have left! K-love is valuable to us!
